

Protecting Polished Concrete at US Naval Station

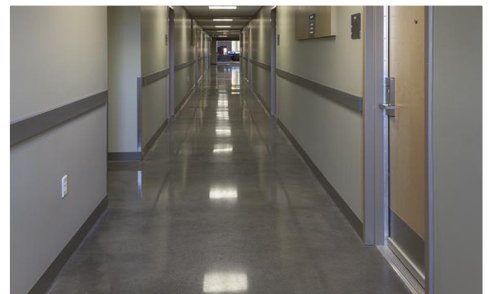

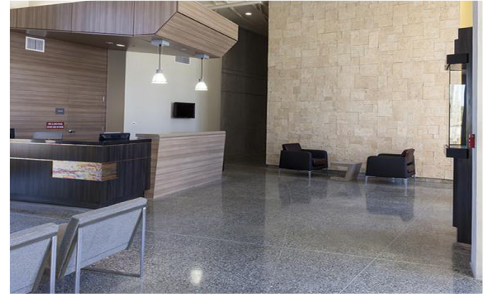

Project Details:

- Bachelor Enlisted Quarters, US Naval Station
- Coronado, CA
- Hensel Phelps Construction Co. / T.B. Penick & Sons
- Skudo MT Mat - 25,000 s.f.
- Polished Concrete and Exposed Aggregate
- 2012 *Concrete Construction* Award Winning Project

Why Skudo was Chosen:

- Skudo was laid on the exterior site, which was later enclosed. Plastic sheeting had failed to stay in place due to rain and wind.
- Skudo is easier to work with and costs less than Masonite.

**Skudo is proud to have protected
T.B. Penick & Sons' Award Winning
Polished Concrete Project**
