

# Polished Concrete

saved from water main break

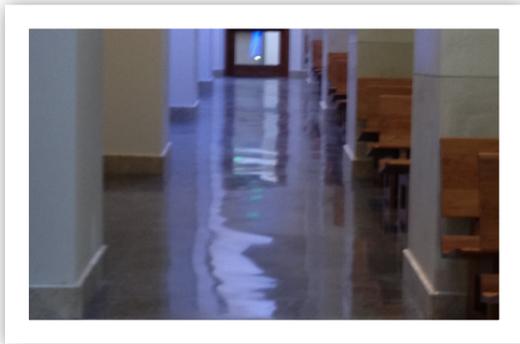

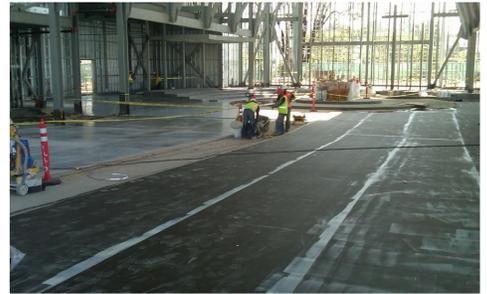

# Skudo®

## Project Details:

- Our Lady Queen of Angels Church
- Newport Beach, CA
- Illig Construction / Tilden Coil
- Skudo HT Mat - 12,000 s.f.
- Integrally Colored Concrete Polished by Floorseal
- April to December 2012

## Challenges Skudo Endured:

- A broken water main that submerged half of the site for 4 days
- Floor to ceiling scaffolding, lifts, masonry work
- Grey integrally colored concrete, known to discolor, was revealed to be damage & stain free after 8 months of heavy construction activity.

**“I loved the product. It did its job and we will use it on our projects going forward.”**
