Skudo®

Description

Skudo's Light Traffic (LT) Tack-Mat delivers reliable temporary surface protection that's quick and easy to apply across a wide range of interior surfaces. Designed for both vertical and horizontal applications, LT Tack-Mat easily conforms around corners, stairs, and door jambs, making it ideal for protecting countertops, cabinets, windows ledges, floors, and more. Featuring a unique self-adhesive surface, simply peel the backing and apply for fast, efficient installation.

LT Tack-Mat provides dependable interior protection for both commercial and residential projects for up to 12 months, helping prevent damage, reduce rework, and keep projects on schedule.

Easy Application

Versatile usage

Protects from materials & dirt

Durable

Floors, Countertops, and Edges Covered

LT Tack-Mat is available in three sizes to suit a variety of project needs. The standard roll measures 40" wide by 165' long. **Counter-Mat**, specifically sized for countertops and cabinets, measures 27" wide by 82' long. **Edge Protect**, designed for ledges and door and window frames, is available in 12" wide by 82' long rolls.

Benefits

- Strong bond blocks dirt and debris from contacting protected surfaces
- Guards against impact and abrasion from carts and foot traffic
- Stain-resistant barrier protects from small spills, including chemicals, solvents, paints, and oils
- Seamless, slip-resistant surface that stays securely in place
- Performs in a wide temperature range: -20°F to +200°F
- Easy to adjust or inspect - simply peel up and reposition

Uses

LT Tack-Mat provides comprehensive protection for interior surfaces* during construction or remodeling, including:

- Tile & Stone: Marble, granite, ceramic, porcelain
- Flooring: Hardwood, laminate, and sheet vinyl
- Vertical Surfaces: Walls, cabinets, doors, framing, and stairs
- Bathrooms & Counters: Showers, bathtubs, and countertops

Skudo LT Tack-Mat products feature a durable gray surface with 1/16" thickness.
See all available versions below:

Light Traffic (LT) Tack-Mat

- Dimensions: 40" x 165'
- Surface Area: 550 SF
- Roll Weight: 50 lbs
- Product SKU: TM-LT-3.3-165

Counter-Mat

- Dimensions: 27" x 82'
- Surface Area: 184 SF
- Roll Weight: 15 lbs
- Product SKU: TM-LT-2.25-82-COUNTER

Edge Protect

- Dimensions: 12" x 82'
- Surface Area: 82 SF
- Roll Weight: 8.5 lbs
- Product SKU: TM-EP-12i-82

Application & Removal

All Skudo Tack-Mat products are easily applied by peeling off the release paper and pressing down onto the surface.
Simply peel up Tack-Mat leaving a clean, undamaged surface.

Limitations

- **INTERIOR USE ONLY.** Skudo LT Tack-Mat is intended for **interior use only** and is not suited for areas that will be exposed to inclement weather and wind. If exposure to the elements is a concern, Skudo recommends the Heavy Traffic (HT) Commercial Mat System. Please consult with your Skudo representative for more details.
- **All adhesives have the potential to lift finished coatings or paint depending on the condition and age of the surface.** Testing a small piece in a non-critical area will help you judge suitability for use.
- If applying to hardwood flooring, only use Skudo Tack-Mat on sealed hardwood with a hard wearing factory finished surface (eg : Aluminum Oxide). If in question, please contact Skudo for suitability testing.
- If applying vertically, space must be conditioned. Humidity can cause this system to release from the substrate.

- **Skudo Tack-Mat should NOT be applied to:**
  - Concrete
  - Limestone
  - Rough/Textured Surfaces
  - Non-factory finished Hardwood
  - Raw or unfinished Timber/Hardwood
  - Any exterior surfaces

Please consult with your Skudo representative to determine which Skudo product is best for your project.
