Description

SkudoBoard STAIR GUARD/CORNER GUARD is a heavy duty, synthetic, rigid board that is specifically designed to fit perfectly around sharp edges, such as corners, stair treads, and wall edges. SkudoBoard STAIR GUARD/CORNER GUARD is lightweight, easy to install, and extremely impact resistant. The extra layer of protection from the fabric backed underside guards from dents, cracks, scuff marks, and scratches on stairs and edges due to carts, equipment, and general construction traffic.

The textured surface of SkudoBoard STAIR GUARD/CORNER GUARD provides high slip resistance in addition to being fire retardant and water resistant. The STAIR GUARD version also features a safety orange grip tape on the tread for additional slip-resistance.

SkudoBoard STAIR GUARD/CORNER GUARD is also resistant to curling and warping - reducing safety hazards on your jobsite. STAIR GUARD/CORNER GUARD has the same compression strength as SkudoBoard delivering protection from dropping objects, keeping your surfaces safe. It is also reusable – saving you time, hassle, and money.

Features & Benefits

- Fits perfectly around corners, stair treads, and wall edges
- Water resistant, can be used on exterior surfaces
- Fabric backed underside for an added layer of protection
- Replaces curling Masonite and plywood
- Fire Retardant (ASTM E 648 Class 1, 16 CFR 1630)
- Test-proven slip resistance in wet conditions (ANSI/NFSI B101.3-2012)
- Extremely high impact resistance – spreads impact loads
- Ideal for protection from carts, lifts, dropped tools and materials
- Well suited for protecting surfaces from jobsite traffic and debris
- Light weight, easy to handle and reusable
- Far superior to cardboard protection products
