

with
**GRIP
TAPE**

Description

Skudo **TRACTION MAT** is a peel and stick carborundum mat delivering a safe, extra slip resistant solution over any surface type, even when exposed to the elements. **GRIP TAPE** is a smaller version of **TRACTION MAT** and provides the same slip resistance and reliability.

Great for high traffic areas, stair treads, ramps, scaffolding planks, driveways, and other potential slip hazard surfaces.

IMPORTANT: Unlike other Skudo products, **TRACTION MAT** will **permanently adhere to any surface it is applied to**. For a temporary solution, we recommend using **TRACTION MAT** over another Skudo product, such as the **Skudo Commercial System, Tack-Mat, or SkudoBoard**.

Features & Benefits

- Create non-slip surface anywhere
- Easy to apply in one step
- Stays in place
- Use in combination with other Skudo products for a temporary solution
- Interior and exterior use

TRACTION MAT Product Details

- Width: 3.3'
