Skudo®

Description

Keep every residential project looking flawless with Skudo's **ResiBoard**, a lightweight, durable surface protection solution designed specifically for residential construction and renovation. ResiBoard guards against foot traffic, carts, tools, paint, spills, and splatter, helping prevent scratches, scuffs, and damage while work continues around it.

Fire-retardant, slip-resistant, and water-resistant, ResiBoard provides reliable protection for workers and finished surfaces throughout the jobsite. Safe for use on LVT, laminate, finished hardwood, porcelain and ceramic tile, and natural stone, it offers versatile protection across a wide range of residential applications.

Lightweight and easy to handle, ResiBoard is simple to cut, quick to install, reusable, and easy to remove when the job is complete. Whether you're building a custom home, remodeling, painting, or finishing interiors, ResiBoard helps keep surfaces protected from start to finish.

- Length: 36 yards long
- Thickness: 16 mil
- Color: Black
- SKU#: BOARD-TAPE-SKUDO-36-BLK

Walk-Behind Tape Dispenser
Back-saving walk-behind tape dispenser, recommended for installing SkudoBoard 4' x 8' sheets.

- Weight: 10 lbs.
- Color: Orange
- SKU#: AC-TAPE-APPLICATOR

Application

Clean the area of dirt, dust, and debris before applying to ANY surface.

Similar to standard SkudoBoard 4' x 8', ResiBoard can be installed in a stack-bond or running-bond (offset) pattern. Leave a 1/16" expansion gap between boards to accomodate expansion in extremely hot conditions.

Tape all seams using a minimum 3" wide trafficable tape suitable for external and internal use. For best results, Skudo recommends using our Skudo Premium Seam Tape and Walk Behind Tape Dispenser.

*Visit our website (**www.SkudoUSA.com**) for more best practices and additional SkudoBoard protection solutions, including Column Guard, Stair Guard, Corner Guard, and BEASTBoard.*
