Description

Introducing Skudo BEASTBoard - the heavy-duty temporary surface protection built to take on the toughest jobsites. Engineered for demanding commercial, industrial, and military-grade environments, BEASTBoard stands up to extreme impact, heavy rolling loads, and constant traffic from machinery, forklifts, vehicles, and material-handling equipment. BEASTBoard is also built to resist curling, warping, and wear, while its slip-rated, flame-retardant, water-resistant, and reusable design ensures reliable protection in harsh conditions.

Ideal for protecting concrete, epoxy, terrazzo, tile, resilient flooring and more, BEASTBoard is the trusted surface protection solution for everything from data centers and hospitals to manufacturing plants, distribution facilities, and military installations.

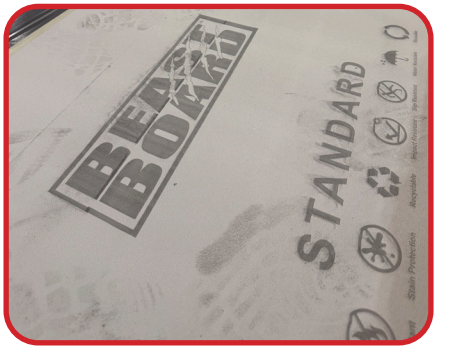

Absorbs heavy loads

Designed for heavy commercial/ industrial/military environments

Slip-resistant and fire-retardant

Reusable

Features & Benefits

- Extremely high impact resistance - spreads and absorbs heavy loads
- Withstands forklifts, machinery, and high-traffic jobsite conditions
- Resists curling and warping
- Slip-resistant surface for added safety
- Fire-retardant and water-resistant
- Reusable for multiple phases or projects
- Protects against stains, scratches, and surface damage
- Fast, easy installation and removal

Uses

- Designed for heavy commercial, industrial, and military environments
- Protects most common commercial flooring surfaces*, including concrete, (sealed, polished, or coated), epoxy, terrazzo, LVT, resilient flooring, and more
- Suitable for both horizontal and vertical surfaces
- Can be placed over waterproof membranes

*Speak with your Skudo representative to confirm substrate suitability.

MADE IN USA

Innovative, purpose-built surface protection systems. This is all we do.

SkudoBoard BEASTBoard Product Data

BEASTBoard

- Board Size: 4 ft x 8 ft
- Square Footage: 32 sq. ft.
- Color: Light Grey
- Weight: 20 lbs./board
- Thickness: 3/8"
- SKU #: BOARD-FR-BEAST-STD-4x8-GREY-A

SkudoBoard Premium Seam Tape

16 mil heavy-duty duct tape, recommended for joining boards

- Length: 36 yards long
- Thickness: 16 mil
- Color: Black
- SKU#: BOARD-TAPE-SKUDO-36-BLK

Walk-Behind Tape Dispenser

Back-saving walk-behind tape dispenser, recommended for installing SkudoBoard 4' x 8' sheets.

- Weight: 10 lbs.
- Color: Orange
- SKU#: AC-TAPE-APPLICATOR

Application

Clean the area of dirt, dust, and debris before applying to ANY surface.

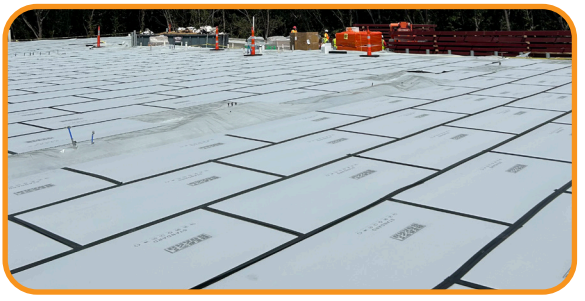

Similar to standard SkudoBoard 4' x 8', BEASTBoard can be installed in a stack-bond or running-bond (offset) pattern. Leave a 1/16" expansion gap between boards to accomodate expansion in extremely hot conditions.

Tape all seams using a minimum 3" wide trafficable tape suitable for external and internal use. For best results, Skudo recommends using our Skudo Premium Seam Tape and Walk Behind Tape Dispenser.

*Visit our website (**www.SkudoUSA.com**) for more best practices and additional SkudoBoard protection solutions, including Column Guard, Stair Guard, Corner Guard, ResiBoard, and BEASTBoard.*
