Skudo®

Description

SkudoBoard COLUMN GUARD is a heavy duty, synthetic, flexible version of the SkudoBoard product line that provides superior protection to columns and pillars during construction. Column Guard protects the surface from damage from splatter, spills, scuff marks, and scratches, carts, supplies and equipment.

The textured surface of Column Guard is water resistant and won't curl, warp, or unravel - reducing safety hazards on your jobsite. Use wherever you would protect your columns with cardboard, plastic, masonite or plywood.

Extremely high impact resistance

Features & Benefits

- Water resistant, approved for exterior use
- Replaces curling Masonite and plywood
- Extremely high impact resistance
- Ideal for forklift and material cart protection
- Well suited for protecting columns from jobsite traffic and impact
- Light weight, easy to handle and reusable
- Far superior to cardboard and plastic protection products

Replaces Plywood, Cardboard

Application

SkudoBoard Column Guard is installed by wrapping the flexible material around columns, pillars, beams, or other vertical surfaces and trimming to size with a utility knife.

Secure in place using durable tape at least 3" wide.

Easy to install
